

Moritz Grenz - TECHNICAL RIDER

DURATION, AUDIENCE

- ± 25 minutes
 - The performance is suitable for all ages.
 - Capacity: depending on the venue up to 500.
 - Maximum number of performances: up to two performances a day.
- In case of two performances a day: There must be 1h between the end of the first and the start of the second show.

CONDITIONS OF THE SITE

- The ground of the performance site needs to be FLAT and clean.
- The space required for the construction of the structure is 8x 3 meters and min 5m height.
- The site should be quiet during the performance. Other performances can't play simultaneously in the direct surrounding of the performance area and during the performance there shouldn't be other noisy activities.
- The organization is responsible for the performance area. Any damage caused on the performance area can't be recovered from Moritz Grenz.

WEATHER CONDITIONS

- Due to safety reasons, Moritz Grenz can't perform in case of rain (or when the performance area is still wet), extreme wind, extremely high temperatures, extremely low temperatures or thunder. In consultation with the organization, we will search for an appropriate solution. Moritz Grenz always has the final word on this.

TECHNICAL REQUIREMENTS

- Power supply:
- Lighting: general in case of performing in the evening or inside
- Sound/decor: **Sound system with extra plug 220V/12A. PA with minimum 2 speakers. Mixer with minimum two XLR channels. The PA should be suitable and in relation to the performance space. 1 wireless microphone (Sennheiser XSW 2-835) or similar.**
